

WP 5AM

WP 5AM, waterproofing self adhesive membrane, is a bituminous water proof sheet, which provides resistance to Radon, composed of self-adhesive SBS polymer modified bitumen with an upper surface finish of cross laminated HDPE and a lower surface finish of paper release film.

Features and benefits:

- High Chemical Resistance.
- High resistance to Ground Gasses.
- Long term durability - performance is guaranteed for the lifetime of the building.
- Compatible with all building materials.
- Manufactured to met the most up to date British Standards and guidance.

WP 5AM is used for the radon/waterproofing of underground structures where harmful ground gasses are anticipated, and a self-adhesive accessory to GP®2, GP®4, GP®L, GP®H and HYDROLOCK membrane systems.

Accessory Products

- GP® Primer
- GP® Protection Board
- GP® Protection Fleece

Physical Properties

Thickness	1.50 mm
Width	1.05 m
Length	19.05 m
Weight	1500 g/m ²

Gas Permeability

Radon	8.2 x 10 ⁻¹²
-------	-------------------------

Compliance and Certification

- Meets the requirements of CE marking
- BS8102:2009 Compliant
- Meets the requirements of EN 13969 and EN 13707
- Meets the requirements of CTE
- Meets the requirements of EN 13859-1 and EN 13859-2 norms
